

CASE STUDY

IMAGINE | CREATE | DISPLAY

CLIENT:
Cuspal - Dublin Cyber Security Show

SCOPE OF WORK:
Supply of stage backdrop.

SYSTEM SPECIFICATIONS:
2.5m high x 17m wide wall
Multiple wall units of 2.5m high x 3m wide
and 2.5m high x 6m wide

PROJECT OVERVIEW:

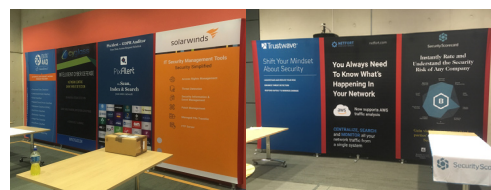

The project required the quick erection of multiple 3 backdrop walls that was strategically placed around the expo venue in Dublin. The longest unit was a staggering 17m with a seamless textile graphic. Other walls varied between 3m wide and 6m wide - all single sided.

The entire build took 5 hours with only 3 staff members. Breakdown took only 3 hours and all stock was transported in a small utility vehicle with no special transport requirements.

The client (Cuspal) had some of their own TRIGA® Max stock but TRIGA UK supplied the balance on hire to fulfil the requirement.

BENEFITS:

Lightweight, portable and extremely stable over long displays, TRIGA® Max was the preferred product.

INNOVATIVE TENSIONED TEXTILE DISPLAY SOLUTIONS
