

CASE STUDY

IMAGINE | CREATE | DISPLAY

CLIENT:
Stonewater Housing Trust

LOCATION:
Cheltenham Race Course, Cheltenham, UK

SCOPE OF WORK:
Supply of freestanding wall with angled 'pages' to recreate a book effect. Result is a 2D stand with a 3D effect.

SYSTEM SPECIFICATIONS:
7m wide x 2.5m high wall with 45deg angles.

PROJECT OVERVIEW:

TRIGA UK was contracted to supply a quick build display system that represented a "book effect" to support the aim of a presentation document about where the company is and where it is going. This document was released to staff at the company's corporate race day where over 700 people would be in attendance.

The also wanted the textile graphics produced in such a way that they could be re-used at a later date and wall mount in their corporate Head Office.

Stonewater Housing Trust was delighted with the finished result using TRIGA Max® and complimented TRIGA UK on the accurate representation of what they were trying to achieve.

BENEFITS:

Very versatile and quick to erect and break down. Extremely stable and able to be configured at 45 degree angles.

TRIGA Max® wall mount options are available for post event re-use of the textile graphics in the customers' offices.
